$$\cosh(z) == 0 \;/;\; z == \pi\, k\, i + \frac{\pi\, i}{2} \bigwedge k \in \mathbb{Z}$$

Theorems

Catenoid

The function $r(z) == \alpha \cosh\left(\frac{z-z_0}{\alpha}\right)$ in polar coordinates defines a minimal surface called the catenoid.

History

– V. Riccati (1757)
– D. Foncenex (1759)
– J.H. Lambert (1768)

The function cosh is encountered often in mathematics and the natural sciences.
